Trauma Monkey	Begin	End	Type	Scale (1-6: 1 is most severe and the differences in scale are NOT linear ... so going from "4 to 3" is a BIG transition)	Computed Severity	1870-1900	1901-1931	1932-1962	1963-1993	1994-2014	2015-Present	*I am assuming a 30 year interval post 2015. This is not correct, but I think we are in the end phase ... whatever.
